All,

As discussed yesterday, I created a document with the preamble sections where we discuss and propose (and request comments on) the components and criteria for what makes an effective PTE limit that is sufficient to support reclassification. Please proceed to work on this document as discussed yesterday.

# Deliberative Process / Ex. 5

**I will like to get your input before 9AM on Monday.** I will set a meeting for Monday for us to discuss any wrinkles. On Monday, I will save a new version and clean up the document and move the "final" clean preamble and reg text to the clean post FAR package.

This post FAR package will then move officially to OGC and OAQPS for review.

Please do not hesitate to email me or call me if you have questions.

I am appreciative of all your work. You hold the expertise that we need to get this section to the other side. 😊
